Education

Bachelor of Applied Science, Computer Engineering | University of Toronto
- **2019 - 2023** Starting 3rd year in September 2021
- **4.0/4.0 cGPA** Cumulative Grade Point Average (4 terms).
- **96.3%** Cumulative Average

Professional Experience

Software Developer Intern | Rocscience Inc | **Summer 2021**
- Reimplemented CPillar, a major C++ geological analysis software.
- Researched Unsupervised Machine Learning Image Segmentation for RocFall3.

Academic Researcher | iQua Research Group | **Summer 2020**
- Helped to design and apply deep reinforcement learning algorithms under the supervision of Prof. Baochun Li within the context of networking problems, such as congestion control, edge computing and network-adaptive coding.

Engineering Projects

See for Code and more Detail: **https://github.com/isidorjkaplan**

CPillar | Work Project
- Rewrote CPillar from the ground-up in C++
- Incorporated best practices of Object Oriented Design and User Interface Design

Processor Design Project | Project
- Designed a Verilog 16-bit, 8-register, interrupt-enabled processor.
- Designed assembly for processor
- Wrote assembly programs using memory-mapped I/O (VGA, buttons, LEDs)

Project GitHub: **https://github.com/isidorjkaplan/ProcessorPublic**

Mapper Project | Term Project
- Implemented large-scale Google-maps inspired program in C++
- Designed user-friendly interface for interacting with complicated functionality
- Incorporated sophisticated solution for TSP using Simulated Annealing

Project GitHub: **https://github.com/isidorjkaplan/MapperPublic**

Engineering Design Team | METSCO Energy Solutions
- Led an engineering team to implement a Machine-Learning based solution for identifying faulty power-line insulators from images.
- Collaborated with client to submit peer-reviewed research paper based on work

Project GitHub: **https://github.com/isidorjkaplan/insulators**

Profile

Computer Engineering student at the University of Toronto with interests in machine learning, software development, and computer hardware.

Interpersonal Skills

- Communication
- Teamwork
- Leadership
- Organization
- Project Management

Technical Skills

Programming Languages
- C / C++
- Python
- Java
- MATLAB

Hardware
- ARM Assembly
- Verilog
- Quartus
- ModelSim

AI / ML
- Reinforcement Learning
- Computer Vision
